

## **KESR AGM 2024**

### **Election of Directors – Candidate Information**

#### **Matt Hyner Statement**

I have been a trustee of K&ESR since 2019, establishing and working with the Volunteering and Projects committees. I have been a working volunteer for over 20 years in the roles of Driver, Guard and Signaller. I graduated from the University of Kent with a degree in computing and business administration. My career began working across K&ESR Operating and Commercial departments for several years, before developing my profession working for both Essex Police and Kent Police in Programme and Projects, as a fully qualified project manager and now 6 years as business relations manager.

I have qualifications, knowledge and experience from my professional career which coupled with my knowledge and experience in operating the K&ESR, I believe I can continue to support the strategic development of the Railway. Alongside supporting continuous improvement through empowering and enabling the volunteers to foster and contribute to positive change, I will work to ensure that our Railway remains relevant, attractive to and supportive of our people, while working towards its aims and objectives.
