

Robin Moira White

I am a life member of the K&ESR.

I first volunteered on the Railway in the 1980's as a guard, signalman, station master and controller. I have regularly volunteered on the Wealden Pullman although in recent times health issues have curtailed my ability to contribute in this way.

I was a career railwayman with British Railways and held appointments at Waterloo, Ashford, Eastbourne and Bristol.

In 1995 I qualified as a barrister and have practised at the employment and discrimination bar for over 30 years now. I have appeared in a number of leading cases and regularly comment on legal matters in the media.

I have strong links across the heritage railway sector and often give advice on governance and other legal matters to heritage railways across the UK. I have served as a trustee / director on a number of heritage railway bodies. Those links have proved useful to the K&ESR.

I have served on the K&ESR Board for some years now and am able to make a contribution, in particular, to legal, organisational and governance issues. I am pleased to have been closely involved in the replacement kitchen car project and the return of the Terrier locomotives to service.

I look forward to remaining involved as the railway reconnects to Robertsbridge.
